Features and Benefits

- Stacking telescoping door systems stack all panels in line with the stack stationary panel when the panels are in the fully-open position; in the stacking configuration, all panels are still visible
- Single-direction handing; all panels operate either all-left or all-right
- Door jamb width varies depending on the number of panels in the telescoping system
- Two to eight panel configurations with maximum overall 20’0” frame width
- Main frame head and sill use dark bronze anodized aluminum extrusions
- Folding aluminum nailing fins applied
- Heavy-duty interlock improves air and structural performance
- Panels slide on two tandem, heavy-duty, end-adjustable ball bearing rollers for years of smooth, trouble-free operation
Glazing
- 3/4” tempered insulated glass standard; tinted, obscure, and laminated glass available
- Interior stop glazed with silicone

Muntins
- Flat muntin between glass (MBG)
- 5/8”, 3/4”, 1”
- Contoured MBG 3/4”
- Simulated divided lite (SDL)
  - Beveled 7/8”, 1 1/4”, 2”
  - Pyramid 7/8”
- Flat two tone MBG
  - 5/8”, 3/4”
- Contoured two tone MBG 3/4”
- Standard and custom muntin patterns and configurations available

Interior
- Pine standard, Knotty Alder optional
- Primed and pre-finished interior available

Exterior
Doors standard with heavy-duty extruded aluminum cladding. All colors are painted in-house with our highly durable AAMA 2604 standard finish, or upgrade to AAMA 2605 for the most challenging of environments.

- Unlimited Custom Colors

*Although every effort is made, printed and digital versions of colors may not accurately reflect actual paint color. For an exact match, please contact your Quaker dealer for an actual color sample. Quaker does not assume any responsibility for any misrepresentations of our colors.*
Hardware

- End-adjustable roller system
- Two-point locking gear and keeper
- Flush-mounted handles standard stacking door systems; available in oil rubbed bronze, faux bronze, black and brushed nickel finishes
- Flush-mounted handles are standard with a keyed lock
- All panels standard with brushed nickel finger pull located at the edge of the lead operating panel

Sill

- Full sill with exterior sill nose and interior riser
- Staggered sill for “flush floor” installation (NOTE: When using the staggered sill option for a flush track application, there is no interior sill riser to prevent the potential of water infiltration through the sill. Therefore, an interior mop zone is recommended when using the staggered sill option.)
